

QUALITY POLICY

COMMITMENT STATEMENT:

Marine Capabilities (MARCAP) LLC is fully committed to demonstrating leadership and accountability in the establishment, implementation, integration, and continual maintenance of the HSEQ Management System. MARCAP is dedicated to ensuring that adequate resources—including a safe working environment and a competent workforce—are available to meet all applicable statutory, regulatory, and customer requirements for our land and marine operations, in delivering comprehensive marine support services.

MARCAP is committed to fostering a culture of quality by ensuring active communication, engagement, and participation at all levels of the organization. Through practical leadership, role modeling, and continuous training, MARCAP emphasizes that Quality is the responsibility and goal of every team member.

With appropriate direction and support, each employee will gain a clear understanding of the importance of their role in the Management System, their individual responsibilities in maintaining and improving its effectiveness, and how their contributions directly influence the success of the organization.

Every employee is accountable to executing their tasks in accordance with defined responsibilities and will receive appropriate training to perform their roles effectively.

MARCAP maintains a policy of continual improvement and the establishment of measurable quality objectives, in line with the framework provided by the ISO 9001:2015 Standard. These objectives will be aligned with identified organizational risks and opportunities as determined by Top Management.

We affirm that our Quality Management System Manual and associated procedures accurately reflect the system in place across the organization and comply fully with the requirements of ISO 9001:2015.

The performance of the Quality Management System will be regularly monitored, measured, evaluated, and improved, under the ultimate responsibility of Top Management. Periodic reviews and open communication will ensure that the QMS remains effective and aligned with organizational goals at all levels.

At MARCAP, Quality—including Health, Safety, and Environment (HSE)—is everyone's business. We are all encouraged and expected to contribute toward achieving our shared goals.

This policy is developed in alignment with ISO 9001:2015. All Managers, Masters, Chief Engineers, Crew, and Office Staff are collectively responsible for the development, implementation, maintenance, and continual improvement of the company's HSEQ Management System.
